

# IMSA Attach to IMSA Printers

Installation instructions for Macintosh OS

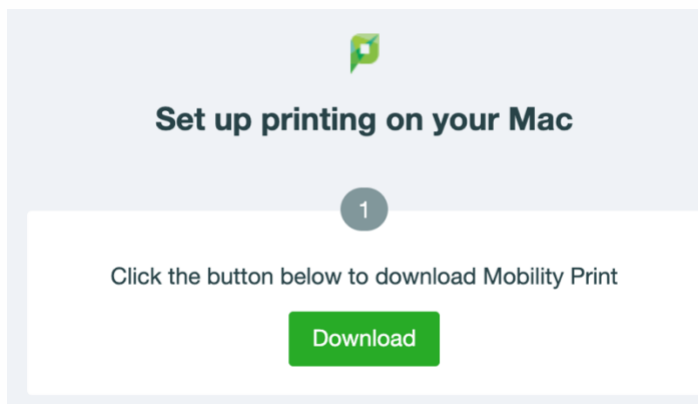

**Note: This task is to be completed while you are at the IMSA Main Campus in Aurora, IL**

## Table of Contents

***Downloading the proper client installation file.....1***  
***Installing PaperCut Mobility Printing Client.....2***  
***Checking the installation of the IMSA printers.....5***

## Downloading the proper client installation file

1. Go to <http://143.195.1.2:9163/setup>
2. Click on the download link for Macintosh OS

3. Download the file to your Downloads folder on your Macintosh computer
4. You may get a warning concerning this download, click Keep to keep the file

## Installing PaperCut Mobility Printing Client

1. Go to your downloads folder and open it so you can see the contents

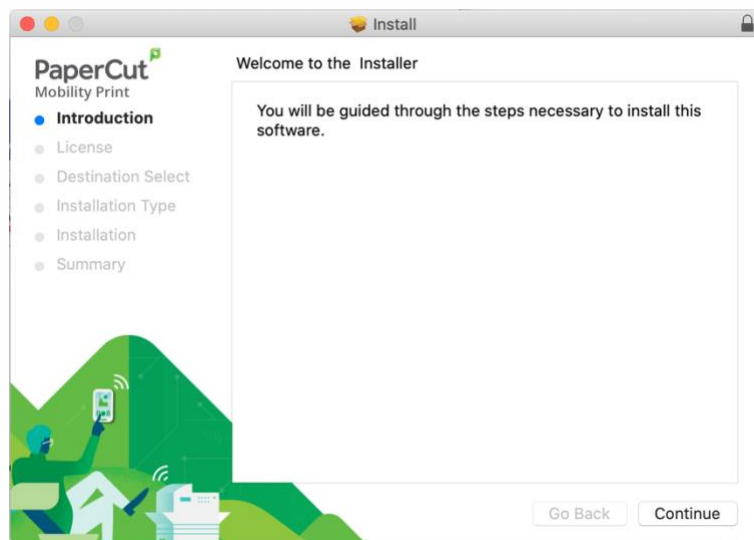

2. Find and double-click on the downloaded file for your version of MacOS, example

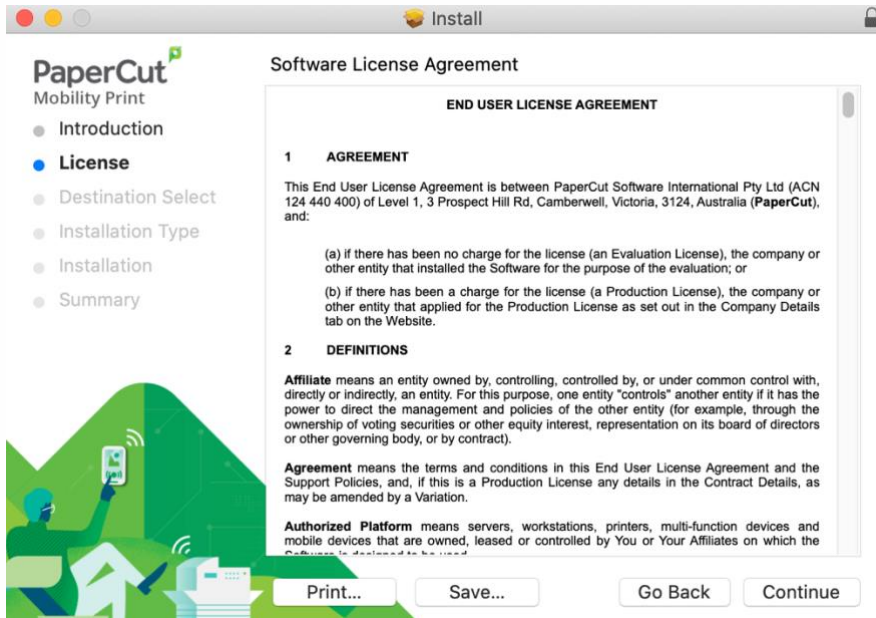

3. Double-click on the file called PaperCut Mobility Print Client.pkg

4. The installation program will open and guide you through the installation and setup process. Click Continue on the first screen.

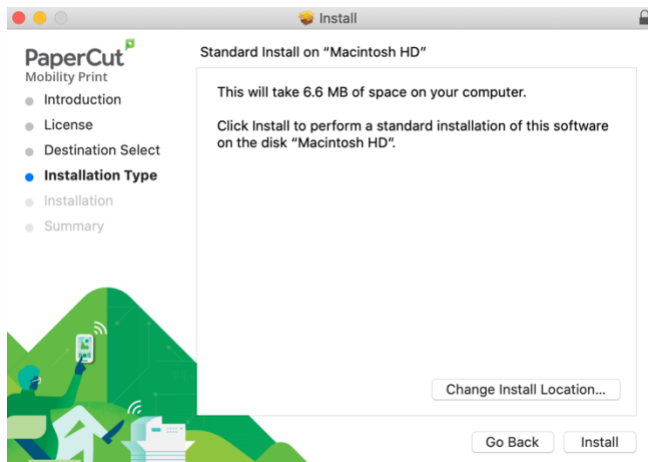

5. Click Continue to agree to the license agreement.

6. Click Agree to confirm.

7. Click Install to install the client to your computer.

8. You will be prompted to enter your Macintosh Computer's login to complete the installation. Enter the login information and click Install Software.

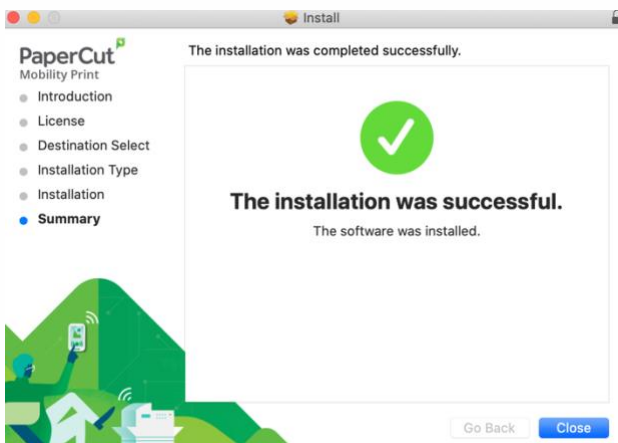

Figure 1-Example Only

9. After a few seconds you should see the following pop-up message

10. A few seconds later the installation program will report the installation as successful. Click Close to close the installation application

11. You may receive the following prompt concerning keeping the installer in your downloads folder, we recommend you select Move to Trash. You can always download and install again.

## Checking the installation of the IMSA printers

### Recommend Tasks

1. Click on the System Preferences icon

2. Click on the Printers and Scanners icon

3. You should see two IMSA printers installed
  - a. Imsastudentbw – for Black/White Printers
  - b. Imsastudentcolor – for Color Printers

4. If you don't see the printers, something went wrong with the installation, see a member of the Student Computing Support (SCS) Team or IT HelpDesk staff to troubleshoot the problem.
  - a. **REMINDER: You must be on campus and connected to a wired Ethernet connection in your Res Hall room or connected to the WiFi network "airimsa".**
